## Examples of Disclosures for Treatment, Payment and Health Operations:

Pursuant to law and any consent form which you have signed:

*We will use your health information for treatment.* For example: Information obtained by a nurse, physician, or other member of your healthcare team will be recorded in your record and used to determine the course of treatment that should work best for you. Your physician will document in your record his or her expectations of the members of your healthcare team. Members of your healthcare team will then record the actions they took and their observations. In that way, the physician will know how you are responding to treatment. We will also provide your physician or a subsequent healthcare provider with copies of various reports that should assist him or her in treating you once you’re discharged from this hospital.

*We will use your health information for payment.* For example: A bill may be sent to you or a third-party payer. The information on or accompanying the bill may include information that identifies you, as well as your diagnosis, procedures, and supplies used. In the event that payment is not made, we may also provide limited information to collection agencies, attorneys, credit reporting agencies and other organizations, as is necessary to collect for services rendered.

*We will use your health information for regular health operations.* For example: Members of the medical staff, the risk or quality improvement manager, or members of the quality improvement team may use information in your health record to assess the care and outcomes in your case and others like it. This information will then be used in an effort to continually improve the quality and effectiveness of the healthcare and services we provide.

*We will share your health information among each other for certain treatment, payment and healthcare operations.* All of the healthcare providers listed at the beginning of this Notice are members of a joint system of healthcare known as an organized health care arrangement. The Baton Rouge General Medical Center and the physicians that practice here are part of a joint arrangement. Your health information received while providing healthcare at the Hospital will be shared among those participating healthcare providers as necessary to carry out treatment, payment, or healthcare operations of the joint arrangement.
