

# What you need to know about using Uber for your vaccine appointment

Mayor-President Sharon Weston Broome, HealthyBR, and Uber have partnered to donate a limited number of rides for East Baton Rouge residents who need a ride to their vaccine appointment. If you cannot coordinate transportation to your vaccine on your own, you can use the promo code below. We require that all riders and drivers wear a face cover or mask.

## Your Uber Promo Code: **10MVBRLA**

### Add your Promo Code to your account

1. Select "Wallet" or "Payment" from your app menu
2. Scroll down to "Promotions"
3. Tap "Add Promo Code/Gift Code"
4. Enter the code and tap "ADD"

### Add your promo code just before you ride!

When you have multiple promo codes available on your account, you won't be able to select which promo applies to your ride. We evaluate and choose the maximum discount available, which will be automatically applied to your ride.

### Promo Code Details

- Your code will work for 4 rides, up to \$25 off each (maximum discount of \$100)
- If your ride is more than \$25, your payment method will be charged the remainder
- If your ride is less than \$25, the remainder won't roll over to a future ride
- Rides must begin or end at an approved vaccine site (cannot be redeemed for drive-thru appointments)
- Quantities are limited while supplies last

**Need help? Tap HELP on your app menu or visit [t.uber.com/promo-help](https://t.uber.com/promo-help)**

Quantities are limited. While supplies last. Must apply the promo code in the Wallet section of the Uber app prior to requesting the ride within East Baton Rouge Parish to redeem the discount. Discount valid up to \$25 off maximum of four (4) UberX or XL trips that begin or end at an approved vaccination site as announced by the City of Baton Rouge. Cannot be combined with other offers. One time use only. Non-transferable. Offer expires at 11:55pm ET on September 30, 2020. Discount does not apply to tips. Offer and terms subject to change.
