

Paragon Setup on Mac

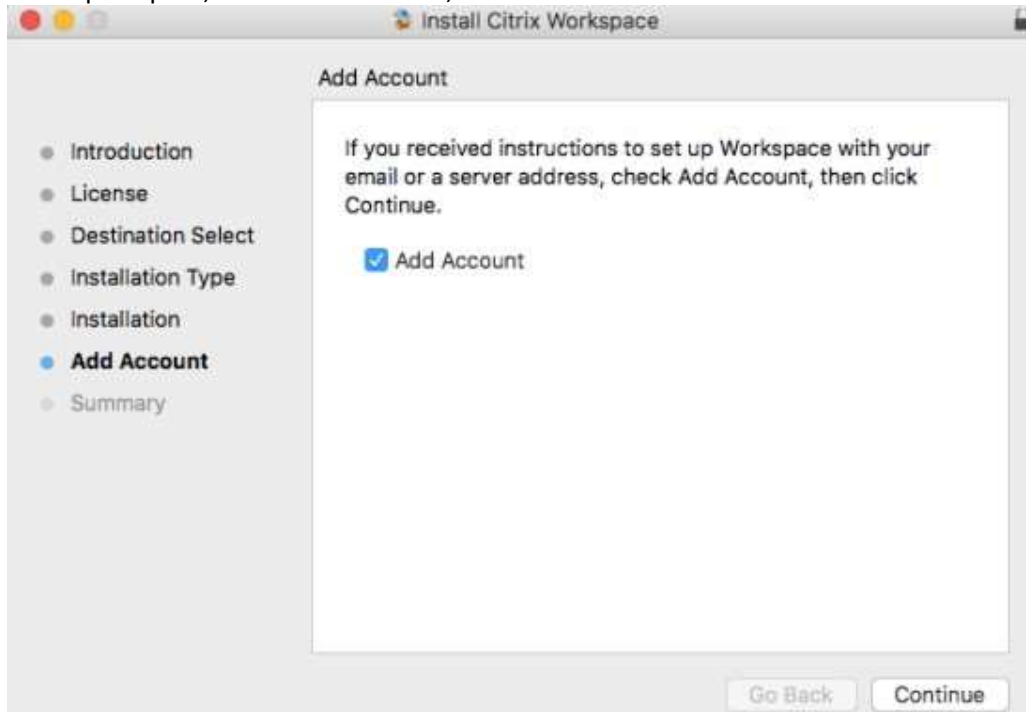

Installing and Configuring Citrix Workspace on Mac

1. Identify Version of OS – will need to be Version 10.15 or greater.

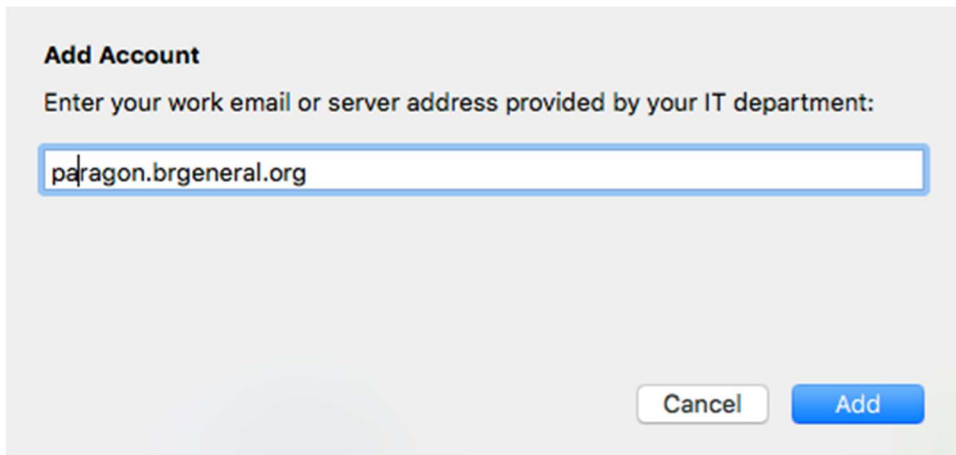

2. Click Apple Icon at top left of screen, then click About This Mac.

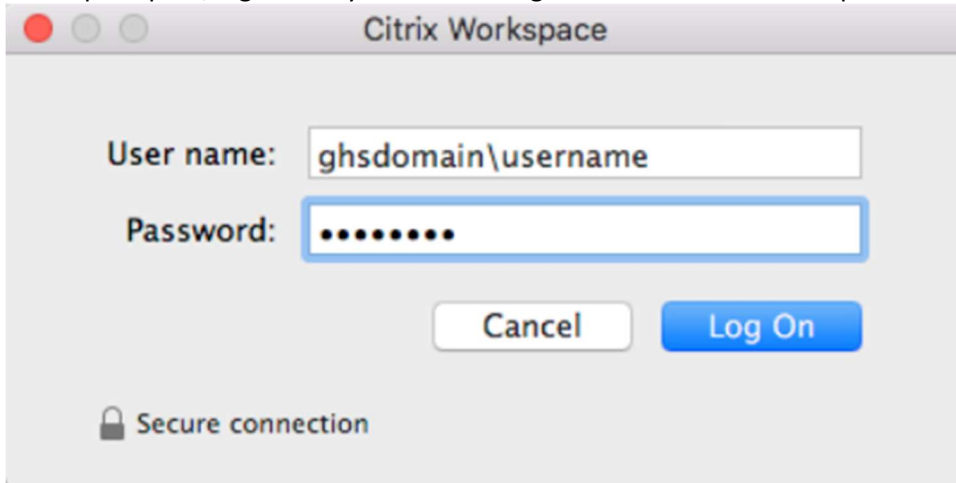

3. Download **Citrix Workspace**. Link below. If Citrix Workspace is already installed, skip to step 8.
<https://www.citrix.com/downloads/workspace-app/mac/workspace-app-for-mac-latest.html>
- Click **Download Citrix Workspace app for Mac**
4. Go to your **Downloads** and double-click the installer (Follow the prompts to install it)
- You will be asked to type in your password, do so and hit Install Software
5. When prompted, check **Add Account**, then click **Continue**

6. On the following screen, enter paragon.brgeneral.org, then click **Add**

7. When prompted, log in with your Baton Rouge General username and password

8. Download **Entrust Root Certification Authority L1K**. Link below.

9. Go to **Downloads** and double-click the Certificate you have downloaded

10. **Keychain Access** window will open.

11. On the left-hand side, under **Keychains**, click **System** and then **Certificates**.

12. Make sure Entrust Certification Authority – L1K is listed.

You can now launch apps on Citrix Workspace
