**PURPOSE:** To define Financial Assistance guidelines for patients of the Baton Rouge General. For the purposes of this policy, Baton Rouge General refers to all campuses of the non-profit hospital, including its doing business as name, "The General".

**POLICY:** It is the policy of the Baton Rouge General to provide medical services, regardless of ability to pay, to those patients in an emergency state. This policy defines how Financial Assistance is defined and applied at the Baton Rouge General.

It is the policy of Baton Rouge General to provide Financial Assistance to patients in need. The purpose of this Financial Assistance Policy (FAP) is to provide the framework under which Financial Assistance will be granted to patients for emergency and medically necessary care provided by Baton Rouge General.

This policy identifies the specific criteria and the application process under which Baton Rouge General will extend Financial Assistance to individuals whose financial status prevents them from fully paying for hospital services. Note that certain eligible individuals will be identified through presumptive eligibility.

This policy applies to all emergency or medically necessary care provided by Baton Rouge General Hospital. This policy does not apply to elective services.

The policy describes the criteria used by Baton Rouge General to determine eligibility for Financial Assistance, the measures Baton Rouge General will take to make the FAP available to our patients, and the Financial Assistance application process. The policy also describes actions taken by Baton Rouge General in the event of nonpayment.

To be eligible for Financial Assistance, you must complete and submit a Financial Assistance application (for patients not identified through presumptive eligibility) along with the required supporting documentation. Financial Assistance applications are due no later than 240 days following the date of the first billing statement on the account for which Financial Assistance is being requested.

#### Collection Practices at the Baton Rouge General

- Patients with insurance are sent a summary bill of their balance after all insurance payments have been processed.
- Patients without insurance are sent a summary bill with their balance on the fifth day following discharge. This will begin the 120-day notification period during which the patient will be notified of their balance and of the availability of the Financial Assistance Program. (This will also begin the 240-day application period). This bill states that Baton Rouge General has a Financial Assistance Policy in place. A patient may request a copy of this policy by contacting our Customer Service line at (225) 819-1000 and one will be mailed, faxed, or emailed. The Customer Service Representatives may also read the policy over the phone if the patient makes this request.
- Several attempts are made by our Business Office to notify the patient that a balance is due. Our Business Office will communicate that a Financial Assistance Policy exists at the Baton Rouge General.
- Patients that either do not respond to collection attempts or are unable to meet minimum payment requirements, by the end of the 120-day notification period, will be notified that their account will be placed with an external collection agency via a Final Demand letter. The Final Demand letter will explain that a Financial Assistance Policy exists at the Baton Rouge General and will explain how to receive a copy of this policy. The final demand letter will also include the plain language summary of this Financial Assistance Policy.
- The external collection agencies utilized by Baton Rouge General may take the following Extraordinary Collection Actions: they may report adverse information to credit agencies or bureaus, they may pursue actions that require legal or judicial processes, including filing liens, attachment or seizure of bank accounts, commencement of civil action against an individual, and wage garnishment.
